

SUPREME IMMUNITY®

PRODUCT CATALOG

*With the healing power
of nature for the healthy,
happy life of dogs and cats!*

The **SUPREME IMMUNITY** premium quality immune-boosting, health-improving product line has been formulated and is continuously developed by a veterinarian to provide wide-ranging protection for preserving the health of pets and overcoming illnesses that may arise. The latest international research also plays an important role in the production of the products.

In Hungary, several veterinarians successfully use it in their practice as a complementary treatment. Many pet owners share their positive experiences with us regarding the effects of **SUPREME IMMUNITY** products and the recovery of their pets.

As it contains 100% natural, human-grade ingredients sourced exclusively from pure sources, it has a beneficial biological effect without side effects.

They exert a complex, cellular-level effect on the animals' bodies:

- Digestive enzymes aid digestion, the breakdown, and optimization of food, and balance acid production.
- Pre- and probiotics regenerate the intestinal flora.
- Antioxidants detoxify the body, binding and neutralizing free radicals.
- Exclusively natural vitamins, Omega-3 fatty acids, and trace elements replenish and regenerate the entire body.
- They enhance resistance and cellular immunity against infections caused by external and internal parasites (mosquito: heartworm disease, flea: allergy, tick: Babesiosis).
- They support recovery in cases of allergy, itching, skin diseases, musculoskeletal disorders, digestive problems, autoimmune diseases, and cancerous conditions.
- They improve the quality of bones, skin, and coat. They increase vitality.
- They support the effects of pharmaceutical treatments, reduce their potential side effects, and speed up regeneration after surgeries.

Our goal is to help as many pets as possible, which is why we created the „Ask the Vet” section on our website, where every pet owner can ask for advice.

MULTIVIT MEGA C COMPLEX

NATURAL MULTIVITAMIN FOR DOGS AND CATS, IMMUNE BOOSTER, ANTIOXIDANT AND VITAMIN COMPLEX FOR A LONG, HEALTHY LIFE

A **multivitamin** complementary pet food formulated based on veterinary experience. It contains highly effective, well-absorbed, and utilized active ingredients and herbal extracts.

100% natural, without side effects. GMO-free, free from additives, a safe and effective solution for maintaining the health of dogs and cats.

Benefits and effects:

Supports the functioning of the immune system, increases the body's resistance, and aids in faster regeneration after illnesses or surgeries.

Contains all important fat-soluble and water-soluble vitamins (A, D, E, K, C, B) in a natural, well-absorbed form, thus comprehensively supporting the health of animals.

High antioxidant content: Extracts from Agaricus blazei and Inonotus obliquus medicinal mushrooms, Vitamin E, and organic selenium provide strong antioxidant protection, slow down the aging process, and help defend against environmental damage.

Natural Vitamin C: Vitamin C from Acerola, Amla, and Myrciaria dubia extracts covers the daily requirement and supports the body's defense system.

Vitality-enhancing, anti-tumor effect: Through polysaccharides and beta-glucans, it increases vitality, and supports the prevention and complementary treatment of cancerous diseases.

Healthy skin and coat: Helps alleviate skin problems, allergies, hair loss, and itching, and supports healthy coat growth.

When is its use recommended?

- For immune boosting in dogs and cats
- In cases of skin problems, allergies, autoimmune disorders
- For developing and maintaining healthy skin and coat

- To support the healthy development of puppies
- To reduce the signs of aging in senior animals
- To support the hormonal system of neutered pets
- For recovery after surgeries, recuperation from illness
- For the prevention and complementary treatment of cancerous diseases
- To protect against nervous system problems, eye inflammations, and environmental damage

Ingredients: Myrciaria dubia extract (natural Vitamin C), Amla extract (natural Vitamin C), Acerola extract (natural Vitamin C), Hippophae rhamnoides extract, Royal jelly (from New Zealand source), Agaricus blazei medicinal mushroom extract, Inonotus obliquus medicinal mushroom extract, Natural Vitamin E (alpha, beta, gamma, delta), Organic selenium.

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of severe deficiency or illness, the dose can be temporarily doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended! It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

NATURAL IMMUNE BOOSTER, OMEGA 3 AND VITAMIN PREPARATION FOR DOGS AND CATS, TO SUPPORT HEALTHY SKIN, COAT, BONES, AND IMMUNE SYSTEM

A highly effective, well-absorbed and utilized complementary pet food formulated based on veterinary experience, containing natural Antarctic Krill oil, and natural full-trans form K2 and D3 vitamin active ingredients. The combination of Antarctic krill oil, natural Vitamin D3, and full-trans Vitamin K2 (MK7) provides a unique immune-boosting, antioxidant, and health-protective effect for your pet. 100% natural, without side effects. GMO-free, free from additives, a safe and effective solution for maintaining the health of dogs and cats.

Benefits and effects:

Natural immune booster: Helps the body's resistance, supports the immune system's function, thus preventing diseases and accelerating regeneration.

Unique source of Omega 3 fatty acids: Antarctic krill oil is one of the most effective natural sources of omega 3, which, through its EPA and DHA content, protects the heart and vascular system and supports the health of the nervous system.

Antioxidant protection: Thanks to its astaxanthin content, the product neutralizes free radicals, protects DNA, and slows down the aging process.

Natural Vitamin D3 and K2 content: Vitamin D3 supports bone formation, while Vitamin K2 (MK-7, full-trans form) helps calcium to be incorporated into the bones, preventing osteoporosis and arteriosclerosis.

Healthy skin and coat: Supports the healthy condition of the skin and coat, reduces the amount of shedding, and helps alleviate hair loss and itching. Pleasant, small shrimp taste that even picky cats enjoy.

When is its use recommended?

- For immune boosting
- For developing a healthy skin and coat, reducing shedding
- To support bones and teeth
- To protect the circulatory and vascular systems
- In case of allergies, hair loss, itching
- To prevent arteriosclerosis, tartar, cataracts, kidney stones
- For the prevention and complementary treatment of cancerous diseases
- To alleviate the signs of aging in senior animals
- To support the healthy development of puppies

Ingredients: Antarctic krill oil (with high omega 3 (EPA, DHA) and astaxanthin content), Vitamin D3 (cholecalciferol) (from natural fish liver source), Vitamin K2 (MK7, full-trans form, fermented, non-GMO soy origin).

Dosage: General dose for prevention: 0.5 ml/5 kg body weight/day for dogs and cats, administered orally. It is recommended to give the dose with food. In case of severe deficiencies, the dose can be temporarily doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended! Not recommended for animals allergic to shellfish! It does not replace a varied, balanced diet.

Packaging: 40 ml gel in a vacuum pump dispenser bottle with a tamper-evident label.

NATURAL CARTILAGE AND BONE STRENGTHENER,

KRILL OMEGA-3 D3+K2 FULL TRANS GEL

BONE STRENGTH & JOINT PROTECTION COMPLEX

JOINT PROTECTOR FOR DOGS AND CATS

A **bone-strengthening** complementary pet food formulated based on veterinary experience. It contains highly effective, well-absorbed, and utilized active ingredients and herbal extracts.

100% natural, without side effects. GMO-free, free from additives, a safe and effective solution for maintaining the musculoskeletal health of dogs and cats. It supports the healthy development and function of joints, the hip, and the spine. It is an ideal choice for both puppies and senior animals for the prevention and complementary treatment of musculoskeletal problems.

Benefits and effects:

Supports cartilage and bone development: The product contains high-quality, well-absorbed collagen, glucosamine, chondroitin, hyaluronic acid, omega-3 fatty acids, MSM, magnesium, and manganese in natural form, which are essential for maintaining a healthy bone and joint system.

Joint-protective, mobility-enhancing effect: It helps the flexibility of joints, reduces pain, promotes cartilage regeneration, and supports mobility and daily activity.

Anti-inflammatory and detoxifying: Through its high-concentration herbal extracts, it has a natural anti-inflammatory and detoxifying effect.

Side-effect-free, GMO-free: Contains no additives, colorants, fillers, or preservatives, so it can be used safely even in the long term.

When is its use recommended?

- In cases of hip dysplasia, intervertebral disc herniation, dachshund paralysis
- To support bone and cartilage development in

puppies and growing dogs and cats

- In cases of movement disorders, joint stiffness, rheumatic joint complaints, arthritis, atrophy, ligament rupture
- For pain reduction, mobility enhancement, and to support post-operative rehabilitation
- To alleviate joint problems in senior animals
- As a natural joint protector for dogs and cats, for both prevention and treatment

Ingredients: Hydrolyzed collagen, New Zealand green-lipped mussel extract, MSM (Methyl-sulfonyl-methane), *Urtica urens* (nettle) extract, *Equisetum arvense* (field horsetail) extract, Magnesium bisglycinate, Manganese gluconate.

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of severe deficiency or illness, the dose can be temporarily doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended! It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

NATURAL CARTILAGE AND SPINE BUILDER, JOINT PROTECTOR FOR DOGS AND CATS

A **cartilage-building and spine-supporting** complementary pet food formulated based on veterinary experience. It contains highly effective, well-absorbed, and utilized active ingredients, herbal, and medicinal mushroom extracts, which support the healthy development and function of joints, cartilages, and vertebrae. It is an ideal choice for both puppies and senior animals for the prevention and complementary treatment of problems affecting the spine and joint cartilages. 100% natural, without side effects. GMO-free, free from additives, a safe and effective solution for maintaining the health of dogs and cats.

Benefits and effects:

Cartilage builder: Helps regenerate cartilage, inhibits cartilage breakdown, supports mobility, and reduces joint pain.

Spine support: Contributes to the health of the spine and vertebrae, can help in cases of degenerative myelopathy, intervertebral disc herniation, dachshund paralysis, and other spinal problems.

Joint protector: Thanks to its content of MSM, hydrolyzed collagen, and New Zealand green-lipped mussel extract, it supports joint flexibility, and reduces inflammation and stiffness.

Natural pain-relieving and anti-inflammatory effect: Turmeric, boswellia, olibanum, and other herbal extracts help to alleviate pain and inflammation.

Mobility support: Regular administration can help maintain your pet's active, pain-free life, supports post-operative recovery, and alleviates age-related joint problems.

When is its use recommended?

- Hip dysplasia, intervertebral disc herniation, dachshund paralysis, tracheal collapse, spinal cord atrophy (degenerative myelopathy)

- Arthritis, rheumatic joint complaints, joint ligament injuries, movement disorders, joint stiffness
- Supporting cartilage development in puppies
- Joint problems in senior animals, post-operative rehabilitation
- To support general mobility, vitality, and a pain-free life

Ingredients: Hydrolyzed collagen for cartilage building and joint regeneration, MSM (Methylsulfonylmethane) – a natural anti-inflammatory and pain reliever, New Zealand green-lipped mussel extract – a natural source of glucosamine and chondroitin, Emblica officinalis, Rhizoma Corydalis, Radix Bupleuri, Radix Scutellariae, Fructus Jujube, Rhizoma Pinelliae, Radix Glycyrrhizae, Rhiz. Zingiberis, Radix Ginseng, Curcuma longa, Resina Commiphorae, Olibanum, Rhizoma Arisaematis herbal and medicinal mushroom extracts for complex support.

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of severe deficiency or illness, the dose can be temporarily doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended! It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

NATURAL, BALANCED BONE FORMATION SUPPORT,

CARTILAGE & SPINE BUILDER

BONE GROWTH BALANCE

WITH HERBAL AND MEDICINAL MUSHROOM EXTRACTS FOR DOGS AND CATS, FOR A HEALTHY SKELETAL SYSTEM AND VITALITY

A balanced bone formation supporting complementary pet food formulated based on veterinary experience. It contains highly effective, well-absorbed and utilized active ingredients and herbal extracts. 100% natural, without side effects. GMO-free, free from additives, a safe and effective solution for maintaining the health of dogs and cats. It helps maintain the state of a healthy skeletal system, supports bone growth, and contributes to the natural balance of bone resorption and bone growths.

Benefits and effects:

Natural bone formation support: Helps healthy bone growth, supports the preservation of bone structure, and contributes to the balance of bone resorption and bone growths.

Immune-boosting and general health-protective effect: The ingredients of the product contribute to strengthening the immune system and the vitality of the body.

When is its use recommended?

- To maintain a healthy skeletal system
- To support bone growth in puppies and young animals
- As a complementary treatment for problems with bone resorption and bone growths
- For general health maintenance, immune boosting

Ingredients: Radix Astragali – an immune-boosting, bone formation-supporting herb, Rhizoma Polygo-

nati – bone growth-promoting effect, Fructus Lycii – antioxidant, immune-booster, Fructus Ligustri Lucidi – bone and liver protective properties, Ganoderma – medicinal mushroom, immunomodulatory, revitalizing.

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of severe deficiency or illness, the dose can be temporarily doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended! It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

NATURAL PAIN RELIEVER, STRESS REDUCER, AND ANTI-INFLAMMATORY FOR DOGS AND CATS, WITH PALMITOYLETHANOLAMIDE AND HERBS FOR A PAIN-FREE, CALM LIFE

A **pain-relieving and stress-reducing** complementary pet food formulated based on veterinary experience. It contains highly effective, well-absorbed and utilized active ingredients, herbal extracts, minerals, and innovative ingredients – including palmitoylethanolamide (PEA), which can help cope with temporary or persistent stressful situations and reduce the sensation of pain without side effects. 100% natural, without side effects. GMO-free, free from additives, a safe and effective solution for maintaining the health of dogs and cats.

Benefits and effects:

Natural pain reliever: The combination of Palmitoylethanolamide (PEA) and herbs helps to relieve pain in various acute or chronic conditions.

Stress reducer: Supports your pet's calmness in stressful situations, such as at the vet, during travel, in noisy environments, or before procedures.

Anti-inflammatory: Extracts of *Boswellia serrata*, *Boswellia carteri*, *Corydalis yanhusuo*, and *Resina Commiphora* naturally reduce inflammation and pain.

Pain reliever without side effects: Safe for long-term use, does not burden the body, and does not cause addiction.

When is its use recommended?

- To reduce stress, anxiety, fear, and restlessness
- To relieve pain in acute or chronic diseases, surgeries, and procedures

- To alleviate pain associated with chronic conditions
- To improve general well-being and support a more pain-free quality of life

Ingredients: Palmitoylethanolamide (PEA) micronized, *Boswellia serrata*, *Boswellia carteri*, *Corydalis yanhusuo*, *Resina Commiphora*.

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of severe deficiency or illness, the dose can be temporarily doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended! It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

PAIN EASE FOR DOGS & CATS

RELAX & BALANCE

NATURAL NERVOUS SYSTEM SUPPORT, CALMING, AND ANTISPASMODIC FOR DOGS AND CATS, WITH HERBS, MEDICINAL MUSHROOMS, VITAMINS, AND MINERALS FOR A CALM, BALANCED LIFE

A **nervous system supporting and calming** complementary pet food formulated based on veterinary experience. It contains highly effective, well-absorbed and utilized active ingredients, herbal and medicinal mushroom extracts, vitamins, and minerals, which help maintain normal nervous system functions, reduce seizure susceptibility, have a calming effect, and improve the general well-being of pets. 100% natural, without side effects. GMO-free, free from additives, a safe and effective solution for maintaining the health of dogs and cats.

Benefits and effects:

Nervous system support: Helps balance the nervous system, supports normal nerve function, and reduces the frequency and intensity of seizures, twitches, and epileptiform attacks.

Natural calming agent: Calms anxious, panicky, or behaviorally disturbed animals, and improves stress tolerance.

Prevention of epilepsy, seizures, and states of confusion: Regular administration can help in cases of idiopathic, primary, or secondary epilepsy, vestibular disease, and other nervous system disorders.

Anxiety reducer: Its natural ingredients, such as passiflora, vitamin B6, and magnesium, support calm behavior and nervous system health.

When is its use recommended?

- For seizures, epilepsy, twitches, states of confusion
- To relieve anxiety, behavioral disorders, panic,

stress

- Vestibular disease, nervous system imbalance
- For general nervous system support, improving well-being

Ingredients: Sunflower lecithin, Bee pollen, Taurine, Hericium erinaceum, Rhizoma Gastrodiae, Uncaria tomentosa, Scutellaria baicalensis, Bupleurum extract, Pinellia ternatae, Magnesium bisglycinate, Passiflora incarnata, Vitamin B6.

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of severe deficiency or illness, the dose can be temporarily doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended! It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

FOR COMPLEMENTARY TREATMENT OF ALLERGIES
NATURAL ALLERGY RELIEF, IMMUNE BOOSTER, AND
ANTIOXIDANT FOOD SUPPLEMENT FOR DOGS AND
CATS, WITH HERBS AND AMINO ACIDS FOR A HEALTHY,
ALLERGY-FREE LIFE

An **allergy-relieving and immune-boosting** complementary pet food formulated based on veterinary experience. It contains highly effective, well-absorbed and utilized active ingredients, herbal extracts, and amino acids that help prevent and alleviate various allergic reactions, support the proper functioning of the immune system, and improve your pet's overall well-being. 100% natural, without side effects. GMO-free, free from additives, a safe and effective solution for maintaining the health of dogs and cats.

Benefits and effects:

Natural allergy relief: Can prevent and alleviate hives, eczema, hot spots, lick granulomas, limb itching, and allergic reactions associated with irritable bowel syndrome.

Effectively helps cope with temporary or persistent hypersensitivity reactions, reduces skin, respiratory, eye, and ear allergy symptoms.

Skin and respiratory allergies: Helps alleviate asthma, allergic tracheitis, hay fever, tearing, ear itching, and other respiratory or eye allergy symptoms.

Immune-boosting effect: Strengthens the immune system, has an antioxidant effect, and supports the body's natural defense capabilities.

When is its use recommended?

- Complementary treatment for any type of allergy in dogs and cats
- Skin allergy, eczema, hot spot, lick granuloma, itching
- Allergic reactions associated with leaky gut syndrome: irritable bowel, colitis

- Respiratory allergy: asthma, allergic tracheitis, hay fever
- Eye and ear allergy: tearing, ear itching
- General immune boosting, antioxidant protection

Ingredients: Sophora japonica extract (natural antihistamine, allergy reliever), Urtica urens extract (anti-inflammatory, immune booster), N-acetylcysteine (antioxidant, immune system-supporting amino acid), Radix Rehmanniae, Flos Lonicerae, Cortex Moutan, Radix Scrophulariae extracts (herbs for complex anti-allergy protection).

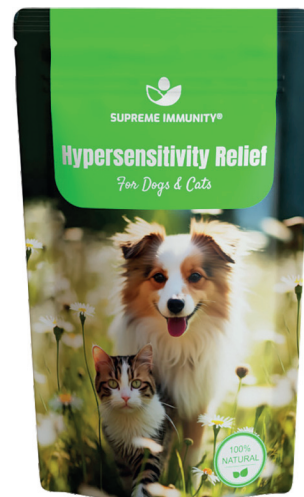

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of illness or severe symptoms, the dose can be temporarily doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended! It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

HYPER- SENSITIVITY RELIEF

DIGESTIVE ENZYMES & PROBIOTICS COMPLEX

NATURAL IMMUNE BOOSTER, DIGESTIVE ENZYMES, AND PROBIOTICS FOR DOGS AND CATS, FOR PERFECT DIGESTION AND HEALTH

A complementary pet food formulated based on veterinary experience, specially developed to **support the digestion** of carnivorous pets. It contains highly effective, well-absorbed and utilized active ingredients and herbal extracts. 100% natural, without side effects, GMO-free, free from additives, a safe and effective solution for maintaining pet health. It contains a high concentration of 9 important digestive enzymes and 4 stomach acid-resistant probiotic bacterial strains that help regenerate the intestinal flora and strengthen the immune system.

Benefits and effects:

Natural immune booster: Supports the functioning of the immune system, promotes an increase in the body's resistance.

Digestive enzymes: Alpha-amylase, pepsin, lipase, lactase, cellulase, bromelain, papain, and other enzymes help break down food, improving digestion and the utilization of nutrients.

Probiotics and prebiotics: *Bacillus subtilis*, *Bacillus licheniformis*, *Bacillus natto*, and *Bacillus coagulans* probiotics, along with organic *Ascophyllum nodosum* kelp, support a healthy balance of intestinal flora and inhibit tartar formation.

Intestinal flora regeneration and healthy bowel function: Prebiotic plant fibers bind harmful metabolic products, nourish healthy bacteria, and help rebuild the intestinal flora.

General health-maintaining effect: Helps in the management of digestive problems, diarrhea, constipation, pancreatic insufficiency, allergies, skin problems, inflammatory, and joint diseases.

When is its use recommended?

- To strengthen the immune system
- To prevent tartar formation

- To support a change in diet, raw diet
- For digestive problems, diarrhea, constipation
- As a complementary treatment for allergies and skin problems
- In cases of inflammatory and joint diseases
- During and after antibiotic and other drug treatments
- To support the treatment of neurological disorders
- For general health maintenance

Ingredients: Alpha-amylase, pepsin, acid protease, neutral protease, lipase, lactase, cellulase, bromelain, papain enzymes, *Bacillus subtilis*, *Bacillus licheniformis*, *Bacillus natto*, *Bacillus coagulans* probiotic bacterial strains, Betaine hydrochloride, *Ascophyllum nodosum* (organic kelp).

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of illness, the dose can be temporarily doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses. It is recommended to give the dose with meals. In case of more severe digestive disorders, continuous administration is also possible. For intestinal flora regeneration, a 3-week course every 3–4 months is recommended.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended. It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

NATURAL STOMACH AND INTESTINAL SUPPORT, DIGESTIVE AID FOR DOGS AND CATS, WITH HERBS, VITAMINS, AND MINERALS FOR HEALTHY DIGESTION

A **stomach and intestinal supporting** complementary pet food formulated based on veterinary experience. It contains highly effective, well-absorbed and utilized active ingredients, herbal extracts, vitamins, and minerals, which support digestive functions, harmonize the operation of the stomach and intestinal tract, and improve your pet's overall well-being. 100% natural, without side effects, GMO-free, free from additives, a safe and effective solution for maintaining the health of dogs and cats.

Benefits and effects:

Stomach support: Helps the proper functioning of the stomach, supports digestive processes, and reduces the occurrence of vomiting, diarrhea, bloating, and other digestive problems.

Intestinal support: Contributes to the health of the intestinal tract, can help in cases of intestinal inflammation, constipation, soft stools, bloody stools, and leaky gut syndrome.

Natural digestive aid: Herbal active ingredients and fibers support bowel movements, nutrient absorption, and the balance of intestinal flora.

Anti-diarrhea preparation: Can help in treating diarrhea and soft stools, as well as alleviating digestive disorders following antibiotic treatment.

Constipation, intestinal inflammation, digestive vitamin: Contributes to regular stools, reduces symptoms of intestinal inflammation, and supports the regeneration of the intestinal tract.

When is its use recommended?

- Stomach digestive problems, vomiting, watery vomit, diarrhea, soft or bloody stools

- Intestinal inflammation, constipation, decreased appetite, stool or grass consumption
- Pancreatic irritation disorders, pancreatic dysfunction, elevated blood sugar
- Digestive symptoms after a course of antibiotics
- Leaky gut syndrome, kidney failure, pancreatic insufficiency, elevated liver enzymes
- To promote weight loss, to support general digestion

Ingredients: Organic Ascophyllum nodosum kelp powder, Emblica officinalis, Psyllium husk (*Plantago ovata*), Pericarpium Citri Reticulatae, Rhizoma Atractylodis, Cortex Magnoliae Officinalis, Fructus Jujube, Radix Glycyrrhizae, Rhizoma Zingiberis Recens, Talcum, Radix Ledebourielae, Fructus Gardeniae, Medulla Junci.

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of severe deficiency or illness, the dose can be temporarily doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended. It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

STOMACH & BOWEL

STOMACH DIGESTIVE AID

NATURAL DIGESTIVE AID, DIGESTIVE ENZYME AND STOMACH SUPPORT FOR DOGS AND CATS, FOR EASIER DIGESTION AND A HEALTHY GASTROINTESTINAL TRACT

A **stomach digestion aid and digestive enzyme complementary** pet food formulated based on veterinary experience. It contains highly effective, well-absorbed and utilized active ingredients, herbal extracts, a protein-digesting enzyme (pepsin), vitamins, and minerals, which support normal stomach digestion, help prevent gas formation and heartburn, and promote healthy digestion. 100% natural, without side effects, GMO-free, free from additives, a safe and effective solution for maintaining the health of dogs and cats.

Benefits and effects:

Digestive aid: Supports the proper functioning of the stomach and intestinal tract, helps to move stomach contents more quickly into the small intestine. Reduces bad breath and improves general well-being.

Stomach digestive enzyme: Its Pepsin content promotes the effective breakdown of proteins and improves the absorption of nutrients.

Stomach support: Reduces heartburn, gas formation, acid vomiting, vomiting after eating, and regurgitation. Supports healthy digestion with natural ingredients.

Anti-diarrhea preparation: Can help in cases of acute and chronic diarrhea, stomach and intestinal problems, bloody stools, and colitis.

When is its use recommended?

- Acid vomiting, vomiting after eating, regurgitation
- Bad breath, restless sleep followed by vomiting

- Acute and chronic diarrhea, digestive disorders, bloody stools
- Allergies, recurrent inflammations, estrogen dominance
- Stomach and intestinal problems, digestive symptoms after antibiotic treatment

Ingredients: Betaine HCL, Ascophyllum nodosum, Emblica officinalis extract, Pepsin 1:10000 U.

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10-20 kg: 2 capsules/day, 20-40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of stomach symptoms, the dose can be temporarily doubled. The capsule should be administered without opening it, at the same time as feeding, so that it only dissolves in the stomach.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended. It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

NATURAL DEWORMER, ANTI-PARASITIC, AND INTESTINAL SUPPORT FOR DOGS AND CATS, WITH HERBAL EXTRACTS FOR A CLEAN AND HEALTHY INTESTINAL TRACT

A complementary pet food formulated based on veterinary experience. It contains highly effective, well-absorbed and utilized active ingredients and herbal extracts that help maintain a healthy intestinal tract, support the balance of intestinal flora, and naturally **inhibit the colonization of single-celled and multi-celled parasites**. 100% natural, without side effects, GMO-free, free from additives, a safe and effective solution for maintaining the health of dogs and cats.

Benefits and effects:

Natural dewormer: Helps keep the intestinal tract clean, prevents the colonization of parasites, worms, and protozoa, and supports a healthy intestinal flora.

Intestinal flora support: Contributes to normal defecation, reduces the occurrence of loose, watery stools or constipation, and alleviates anal itching.

Digestive support: Its natural ingredients also help with food allergies, heartburn, vomiting, liver/gallbladder problems, excessive intestinal gas, and weight loss.

Anti-parasitic: Effectively acts against single-celled and multi-celled parasites, supporting the body's natural defense mechanism.

When is its use recommended?

- For deworming, anti-parasitic protection
- For altered defecation, loose or watery stools, constipation
- For anal itching, ravenous appetite, food allergies, heartburn, vomiting

- For respiratory symptoms, coughing, liver/gallbladder complaints, flatulence, weight loss
- To maintain general intestinal health

Ingredients: Cortex Radicis Meliae Azerdachis, Semen Arecae Catechu, Fructus Quisqualis Indicae, Semen Torreya, Fructus Ulmi Macrocarpae, Rhizoma Dryopteris, Omphalia Fruiting Body, Fructus Carpesii Abrotinoidis, Semen Cucurbitae Moschatae. These herbs and natural extracts complexly support intestinal health and defense against parasites.

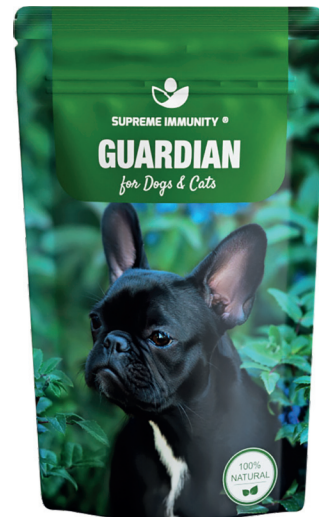

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of illness, the dose can be temporarily doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended. It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

GUARDIAN

LIVER DETOX

NATURAL LIVER PROTECTOR AND DETOXIFIER FOR DOGS AND CATS, WITH HERBS, MEDICINAL MUSHROOMS, AMINO ACIDS, AND MINERALS FOR LIVER HEALTH

A **liver-protecting and detoxifying** complementary pet food formulated based on veterinary experience. It contains highly effective, well-absorbed, and utilized active ingredients and herbal extracts that support the healthy functioning of the liver and the effective elimination of toxins. 100% natural, without side effects, GMO-free, free from additives, a safe and effective solution for maintaining the health of dogs and cats.

Benefits and effects:

Natural liver protector: Helps maintain liver functions, supports the regeneration of liver cells, and protects the liver from damage.

Immune booster: Supports the functioning of the immune system, increases the body's resistance to inflammatory and infectious conditions.

Detoxifier: Promotes the elimination of toxins, supports the body's natural cleansing processes.

Antioxidant and anti-inflammatory: Herbal and medicinal mushroom extracts (Silybum marianum, Ganoderma lucidum, Cordyceps sinensis, Salvia miltiorrhiza, Scutellaria baicalensis, Schisandra chinensis, Bupleurum chinense, Coptis chinensis, and Turmeric extracts).

Liver metabolism support: Amino acids and minerals (Taurine, L-ornithine, L-arginine, and zinc glycinate).

When is its use recommended?

- Liver inflammation and elevated liver function parameters (ASL, ALT, gamma GT, ALP)

- In cases of jaundice and poisoning
- To support inflammatory conditions and parasitosis
- For general liver protection and detoxification purposes
-

Ingredients: Silybum marianum, Trimethylglycine, Ganoderma lucidum, Cordyceps sinensis, Salvia miltiorrhiza, Scutellaria baicalensis, Schisandra chinensis, Bupleurum chinense extract, Coptis chinensis, Turmeric, Taurine, L-Ornithine, Glycyrrhiza uralensis, L-arginine, Zincum glycinate.

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of severe deficiency or illness, the dose can be temporarily doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended. It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

NATURAL LIVER FUNCTION SUPPORT, LIVER PROTECTOR, AND HOMOCYSTEINE REDUCER FOR DOGS AND CATS, WITH BEET-DERIVED BETAIN FOR LIVER AND BODY HEALTH

A **liver-protecting and liver function-supporting** complementary pet food formulated based on veterinary experience. It contains highly effective, well-absorbed, and utilized active ingredients that effectively support the healthy functioning of the liver, mitochondrial functions, and promote the maintenance of normal homocysteine levels. 100% natural, without side effects, GMO-free, free from additives, a safe and effective solution for maintaining the health of dogs and cats.

Benefits and effects:

Liver support: Helps normal liver function, supports detoxification processes, and protects liver cells from damage.

Natural liver protector: TMG (betaine) contributes to the regeneration of liver cells, improves liver function parameters (ASL, ALT, gamma GT, ALP).

Homocysteine reducer: Promotes the maintenance of normal homocysteine levels, which is important for heart and vascular system health.

Anti-inflammatory and immune booster: Can inhibit the production of inflammatory factors. Improves mitochondrial functions, helps cellular energy supply. Supports the body's general health condition.

When is its use recommended?

- In case of liver inflammation, elevated liver function parameters
- Poisoning, inflammatory conditions, diseases associated with weakness

- As complementary treatment for anemia, heart failure, vasoconstriction
- For general liver protection, detoxification, and vitality support

Ingredient: Trimethylglycine (TMG, anhydrous betaine from beets) – 100%

Dosage (for prevention): Up to 5 kg: 1/4 scoop/day, up to 10 kg: 1/2 scoop/day, 10–20 kg: 1 scoop/day, 20–40 kg: 1.5 scoops/day, over 40 kg: 2 scoops/day. One level measuring spoon is approx. 0.5 ml. The daily dose should be given in two parts, with food. In case of severe deficiency, the dose can be doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended. It does not replace a varied, balanced diet.

Packaging: 50 grams in a resealable pouch with a desiccant gel pack and a measuring spoon.

LIVER SUPPORT TMG

CHITOSANE

NATURAL FIBER AND TOXIN BINDER FOR DOGS AND CATS, FOR HEALTHY DIGESTION, DETOXIFICATION, AND VITALITY

CHITOSAN is a 100% natural polysaccharide extracted from the chitin shells of crabs. A GMO-free, additive-free complementary pet food. A safe and effective solution for maintaining the health of pets. As a natural fiber with **toxin-binding** capacity, it effectively supports the health of the digestive system, aids in detoxification, and contributes to the balance of intestinal flora.

Benefits and effects:

As a natural fiber, it promotes bowel movements and supports regular stools, especially in animals prone to constipation.

Toxin-binding effect: In the digestive tract, chitosan binds fats, cholesterol, heavy metals, toxic metabolic products, chemical residues from drugs, and traces of radioactive materials, thus aiding in the detoxification of the body.

Cholesterol reducer: Can lower liver and blood cholesterol levels, especially LDL cholesterol. Intestinal flora support: Can help restore healthy intestinal flora, inhibits the proliferation of yeast and putrefactive bacteria.

Digestive support: Can normalize stomach acid production, reduce excessive acidity, and support the healthy functioning of the digestive system.

Antioxidant effect: Protects cells from oxidative stress, supports the body's overall vitality.

Wound healing support: When applied topically, it can stimulate granulation tissue formation and accelerate wound healing.

When is its use recommended?

- For digestive problems, constipation, intestinal flora imbalances
- To support the reduction of cholesterol and blood lipids
- For the removal of toxins, heavy metals, and chemicals from the body
- For antioxidant support, general detoxification
- To promote wound healing in topical applications
- Ingredients: 100% Natural hydrolyzed chitin in the form of Chitosan.

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of severe deficiency or illness, the dose can be temporarily doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Important: Fat-soluble vitamins (A, D, E, K) should be administered at least one hour before giving chitosan, with a small amount of fat or oil.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended. It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

NATURAL DETOXIFIER AND TOXIN BINDING PREPARATION FOR DOGS AND CATS

A complementary pet food formulated based on veterinary experience, which helps bind harmful metabolic products, heavy metals, and mycotoxins that are generated in or enter the intestines, and **supports the body's natural detoxification processes**. It contains highly effective, well-absorbed and utilized active ingredients: zeolite, shilajit, and activated charcoal. 100% natural, without side effects, GMO-free, free from additives, a safe and effective solution for maintaining the health of dogs and cats.

Main benefits and effects:

Natural detoxifier: Effectively binds toxins, heavy metals, and mycotoxins that enter the body, thereby supporting healthy intestinal function.

Zeolite: Purified clinoptilolite zeolite supports the body's trace element replenishment, contributes to the balance of intestinal flora, and helps alleviate digestive disorders.

Shilajit: With its fulvic and humic acid content, shilajit contributes to the body's vitality, and has immune-boosting and antioxidant effects.

Activated charcoal: Helps bind harmful substances, toxins, and gases in the intestines, thus supporting the treatment of diarrhea, vomiting, bloating, and digestive problems.

Immune booster, general health protector: Supports the body's defense system, aids in faster regeneration in cases of poisoning and digestive disorders.

When is its use recommended?

- To maintain a healthy state
- In cases of poisoning, ingestion of toxins (as a supplement to veterinary treatment)

- For diarrhea, vomiting, dysentery, digestive disorders, bloating, intestinal gas formation
- For trace element replenishment, with its shilajit and zeolite content
- As a toxin binder – with the combined effect of activated charcoal and zeolite

Ingredients: Activated charcoal, Zeolite (clay, Purified Clinoptilolite), Purified shilajit (Fulvic and Humic acids).

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. For prevention, it is recommended to use it in 3-week courses.

In cases of poisoning, the dose can be increased 3–4 times on veterinary recommendation.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended. It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

ACTIVE INTESTINAL DETOXIFIER AND TRACE ELEMENT REPLACER

PROTECTIVE FORCE

NATURAL IMMUNE BOOSTER, IMMUNE SYSTEM SUPPORT FOR DOGS AND CATS, FOR THE BODY'S DEFENSE, VITALITY, AND HEALTH

An **immune-boosting and immune system-supporting** complementary pet food formulated based on veterinary experience. It contains highly effective, well-absorbed, and utilized active ingredients, herbal, and medicinal mushroom extracts that help maintain proper immune system functions, support blood circulation and the active functioning of cells, and improve your pet's overall well-being. 100% natural, without side effects, GMO-free, free from additives, a safe and effective solution for maintaining the health of dogs and cats.

Benefits and effects:

Immune booster: Strengthens the immune system, supports the body's natural defense mechanisms, helps prevent and, as a complementary treatment, supports autoimmune, inflammatory, and cancerous diseases. Due to the complex effect of Silymarin, curcumin, ginseng, jujube, angelica, bupleurum, scutellaria, pinellia, platycodon, atractylodes, paeonia, carthamus, cyperus, and other herbs.

Immunomodulatory and Cell Protector: Trametes versicolor, Fomitopsis betulina, and other medicinal mushroom extracts help with immunomodulation and cell protection.

Tumor preventer for dogs: Supports the body in cases of tumorous changes, hemorrhagic tissue growths, mastocytoma, melanoma, hemangioma, adenocarcinoma, metastases, and other cancerous conditions.

Autoimmune problems: Assists in the complementary treatment of autoimmune processes, liver inflammation, pancreatic insufficiency, adrenal exhaustion, respiratory, and skin problems.

Heart, liver, skin, digestive system support: Also beneficial in cases of heart failure, liver disease, colitis, dry skin, bronchitis, cough, and sinusitis.

When is its use recommended?

- To support the immune system, for immune boosting in dogs and cats
- In cases of autoimmune diseases, tumorous changes, circulatory disorders
- Liver inflammation, pancreatic insufficiency, adrenal exhaustion, heart failure, respiratory, and skin problems
- For general health maintenance, increasing vitality

Ingredients: Silymarin, Curcumin, Prunus persica, Trametes versicolor, Fomitopsis betulina, Radix Scutellariae, Rhizoma Pinellia, Radix Ginseng, Rhizoma Zingiberis Recens, Fructus Jujube, Rhizoma Sparganii, Rhizoma Ligustici Wallichii, Radix Rehmanniae, Atractylodes macrocephala, Platycodon grandiflora, Bupleurum chinense, Paeoniae Rubra, Angelicae sinensis, Glycyrrhizae uralensis, Carthamus tinctorius, Fructus Aurantii, Rhizoma Corydalis, Cyperus rotundus.

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of severe deficiency or illness, the dose can be temporarily doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended. It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

NATURAL ADRENAL SUPPORT AND IMMUNE BOOSTER FOR DOGS AND CATS

An **adrenal-supporting complementary** pet food formulated based on veterinary experience. It contains highly effective, well-absorbed and utilized active ingredients, herbal extracts, and minerals that support the proper functioning of the adrenal glands, help prevent adrenal exhaustion, and contribute to stabilizing the immune system. 100% natural, without side effects, GMO-free, free from additives, a safe and effective solution for maintaining the health of dogs and cats.

Benefits and effects:

Natural adrenal support: Can help maintain the healthy functioning of the adrenal glands, supports hormonal balance and the body's stress response.

Immune booster: Stabilizes the functions of the immune system, promotes the body's defense capabilities, and improves the pet's general well-being.

Metabolism support: Supports the efficiency of carbohydrate metabolism, helps stabilize blood sugar levels, and improves insulin sensitivity.

Minimizing the use of synthetic steroids: Can be used as a complementary treatment in cases of inflammatory conditions, loss of appetite, poisoning, blood sugar problems, immunomodulation, or steroid therapy.

When is its use recommended?

- For adrenal exhaustion in dogs and cats
- For immune system support, immunomodulation
- In cases of carbohydrate metabolism, blood sugar problems
- Loss of appetite, general weakness, stress, hormonal problems

- As a supplement to steroid courses for inflammatory conditions, poisoning
- For general health maintenance, increasing vitality

Ingredients: Acerola cherry extract (25% Vitamin C), Camu camu extract (25% Vitamin C), White Atractylodes rhizome, Poria, Pinella rhizome, Ginseng root, Citrus peel, Licorice root, Coix seed, Phellodendron bark, Achryanthus root, Bupleurum root, Scutellaria root, Jujube.

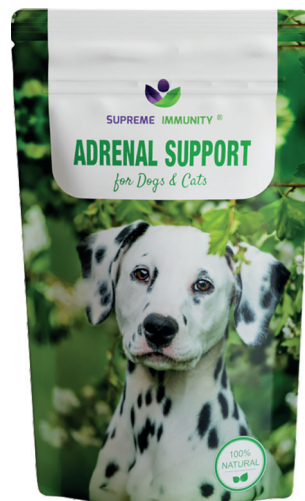

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of severe deficiency or illness, the dose can be temporarily doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

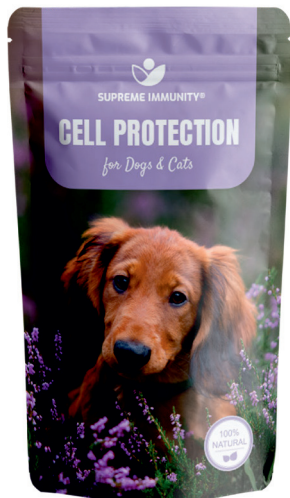

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended. It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

ADRENAL SUPPORT

CELL PROTECTION

NATURAL ANTI-INFLAMMATORY FOR DOGS AND CATS, WITH MEDICINAL MUSHROOM AND HERBAL EXTRACTS, FOR CELL PROTECTION AND COMPLEMENTARY TREATMENT OF ALLERGY, AUTOIMMUNE, AND CANCEROUS PROBLEMS

A 100% natural **cell-protecting and immune-boosting** complementary pet food formulated based on veterinary experience. It contains highly effective, well-absorbed and utilized active ingredients, herbal, and medicinal mushroom extracts that support cell protection, the proper functioning of the immune system, and assist in the complementary treatment of inflammatory, cancerous, and autoimmune-related problems.

Benefits and effects:

Cell protector: Supports cell health, can help prevent the development of cancerous changes, and contributes to the body's self-healing processes.

Immune booster for dogs: Strengthens the immune system, helps the body defend against infections, inflammations, and allergies.

Natural anti-inflammatory: Supports the resolution of inflammations caused by fluid retention, reduces pain and tissue irritation.

Rich in medicinal mushrooms: Ganoderma lucidum, Grifola frondosa, Lentinula edodes, and other medicinal mushroom extracts support the body's vitality and have immunomodulatory and antioxidant effects.

Cancer prevention and autoimmune support for dogs: Can be beneficial in cases of lymphomas, osteosarcoma, carcinoma, fibrosarcoma, skin and prostate cancers, as well as autoimmune stomatitis, gingivitis, allergic dermatitis, Cushing's disease, and type II diabetes.

When is CELL PROTECTION recommended?

- Feline autoimmune stomatitis, gingivitis
- Gland inflammation, allergic dermatitis

- Cushing's disease, type II diabetes
- Cancerous changes (lymphoma, osteosarcoma, carcinoma, fibrosarcoma, skin cancers, prostate and bladder tumors)
- To relieve pain caused by cancer
- For general immune boosting, cell protection, and increasing vitality

Ingredients: Ganoderma lucidum, Grifola frondosa, Lentinula edodes (medicinal mushroom extracts), Trifolium pretense, Arctium lappa, Ceanothus americanus, Ulmus rubra, Rheum officinale, Zanthoxylum americanum, Schizandra chinensis, Mahonia aquifolium, Rumex crispus, Taraxacum officinale, Semen Coicis, Cortex Phellodendri, Radix Bupleuri, Radix Scutellariae, Rhizoma Atractylodis, Radix Achyranthidis, Glycyrrhiza glabra, Rhizoma Pinelliae, Radix Ginseng, Rhizoma Zingiberis Recens, Fructus Jujube.

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of severe deficiency or illness, the dose can be temporarily doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended. It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

NATURAL IMMUNE SYSTEM ACTIVATOR, CELLULAR IMMUNE BOOSTER FOR DOGS AND CATS, WITH HERBS AND AMINO ACIDS FOR THE BODY'S DEFENSE, AND COMPLEMENTARY TREATMENT OF BLOOD PARASITE INFECTIONS AND CANCEROUS CONDITIONS

An **immune system activating and immune-boosting** complementary pet food formulated based on veterinary experience. It contains highly effective, well-absorbed and utilized active ingredients, herbal extracts, and amino acids that support the cellular immune response, strengthen the body's defense capabilities, and contribute to the function of red blood cells and the pet's general well-being. 100% natural, without side effects, GMO-free, free from additives, a safe and effective solution for maintaining the health of dogs and cats.

Benefits and effects:

Immune booster: Enhances the cellular immune response, supports the body's natural defense mechanisms, helps prevent and, as a complementary treatment, supports infections and cancerous conditions.

Cellular immune system activator for dogs: Especially recommended in case of danger from single-celled blood parasites, such as babesiosis, and for the complementary treatment of tumorous conditions.

Anti-blood parasite preparation: Supports the body's defense against infections caused by blood parasites (e.g., Babesia).

Tumor-preventing and immune-boosting effect: Helps the body in cancerous conditions, supports normal red blood cell function.

When is its use recommended?

- To support the immune system, for immune boosting in dogs and cats
- For the prevention and complementary treatment of babesiosis and infections caused by single-celled blood parasites
- For the complementary treatment of cancerous conditions
- For general health maintenance, increasing vitality

Ingredients: Artemisia annua, Cryptolepis sanguinolenta, Sida acuta, Bidens pilosa, Alchornea cordifolia, Uncaria rhynchophylla, Peganum harmala, Ailanthus altissima, Salvia miltiorrhiza, Silymarin, L-arginine.

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of illness, the dose can be temporarily doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended. It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

**STRONG
IMMUNE**

DEFENSE ASSIST

NATURAL IMMUNE BOOSTER, DETOXIFIER, AND ANTIOXIDANT FOR DOGS AND CATS, WITH HERBS, VITAMINS, AND MINERALS FOR THE BODY'S DEFENSE

A 100% natural **immune-boosting and detoxifying** complementary pet food for dogs and cats, formulated based on veterinary experience. The product contains well-absorbed, highly effective herbal extracts, vitamins, and minerals that support the normal functioning of the immune system, aid the body's detoxification processes, and contribute to maintaining the pet's overall health.

Benefits and effects:

Immune booster: Supports the body's defense system, can help prevent and overcome infections, febrile illnesses, and viral inflammations.

Natural detoxifier: Promotes the body's detoxification processes, supports the health of the liver, kidneys, and digestive system.

Natural vitamins: High Vitamin C content from Acerola and Camu camu extracts, as well as Emblica officinalis, which have antioxidant and immune-boosting effects.

Herbal extracts: Silymarin, Turmeric, Lonicera, Chrysanthemum, Dandelion, Viola, and Begonia extracts help reduce inflammation and support the body's overall defense.

Anti-inflammatory and antioxidant effect: Supports the resolution of inflammations, protects cells against oxidative stress, can help the body's faster regeneration.

When is its use recommended?

- For immune system boosting
- In cases of febrile illnesses, viral inflammations
- To support detoxification from toxin-induced conditions

- For fluid-filled and dry pleurisy, mastitis, and mammitis
- To enhance defense against viral inflammations resulting from a weakened immune system

Ingredients: Malpighia glabra extract (acerola) (natural Vitamin C source, immune booster, antioxidant), Myrciaria dubia extract (camu camu) (high Vitamin C content), Silymarin extract (liver protector, detoxifying effect), Emblica officinalis extract (antioxidant, immune booster), Curcuma longa extract (turmeric) (anti-inflammatory, antioxidant), Flos Lonicerae, Flos Chrysanthemi, Herba Taraxaci, Herba Violae, Herba Begoniae Fimbristipulatae extracts (herbs for the body's defense).

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of severe deficiency or illness, the dose can be temporarily doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended. It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

NATURAL IRON COMPLEX, IMMUNE-BOOSTING AND BLOOD-FORMING FOOD SUPPLEMENT FOR DOGS AND CATS, FOR NORMAL BLOOD FORMATION, HEMOGLOBIN LEVELS, AND PREVENTION OF HAIR LOSS

An **iron complex** complementary pet food formulated based on veterinary experience. It contains highly effective, excellently absorbed and utilized active ingredients, herbal extracts, natural vitamins, and minerals that support normal blood formation, hemoglobin levels, and the body's vitality. 100% natural, without side effects, GMO-free, free from additives, a safe and effective solution for maintaining the health of dogs and cats.

Benefits and effects:

Iron supplementation: Contributes to the normal formation of red blood cells and hemoglobin, helps prevent anemia and fatigue.

Natural iron preparation: The combination of Ferrous fumarate, Acerola, and Camu camu extract (natural Vitamin C sources) ensures excellent absorption.

Immune booster: Natural vitamins and minerals support the functioning of the immune system and aid the body's defense processes.

Hair loss prevention: Can help prevent hair loss and the brittleness of keratin structures (claws, fur, skin).

When is its use recommended?

- Anemia, low red blood cell count, decreased hemoglobin levels

- Blood loss due to parasitosis, prolonged bleeding, cancerous wasting
- Hair loss, brittleness of keratin structures
- General immune boosting, increasing vitality
- For maintaining a healthy state, for prevention

Ingredients: Acerola cherry extract (25% Vitamin C), Camu Camu extract (25% Vitamin C), Ferrous fumarate (excellently absorbed iron).

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In tumorous cases, 3 times a day. In case of severe deficiency, the dose can be doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

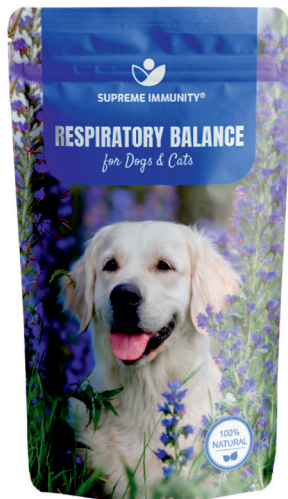

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended. It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

IRON COMPLEX

RESPIRATORY BALANCE

NATURAL RESPIRATORY SUPPORT, ANTI-COUGH, AND IMMUNE-BOOSTING FOOD SUPPLEMENT FOR DOGS AND CATS, WITH HERBS, VITAMINS, AND MINERALS FOR RESPIRATORY SYSTEM HEALTH

A **respiratory-supporting** complementary pet food formulated based on veterinary experience. It contains highly effective, well-absorbed and utilized active ingredients, herbal extracts, vitamins, and minerals that help maintain proper respiratory functions, harmonize the functioning of the upper respiratory tract, and improve your pet's overall well-being. 100% natural, without side effects, GMO-free, free from additives, a safe and effective solution for maintaining the health of dogs and cats.

Benefits and effects:

Breathing aid: Supports the health of the respiratory system, helps clear the airways, and maintains normal breathing.

Natural respiratory support for dogs: Can help alleviate dry and wet coughs, runny nose, colds, sinusitis, tracheitis, and bronchitis, pleurisy, and pneumonia.

Respiratory vitamin: Acerola and Camu camu extract with high Vitamin C content support the immune system and protect the airways.

Anti-cough preparation: Natural herbs and extracts help soothe the airways, dissolve mucus, and ease breathing.

When is its use recommended?

Cough (dry or wet), cold, runny nose, sinusitis

- Tracheitis and bronchitis, pleurisy, and pneumonia

- Viral and bacterial upper respiratory infections
- For maintaining general respiratory health, immune boosting

Ingredients: Acerola cherry (25% vitamin C), Camu Camu (25% vitamin C), Semen Armeniacae, Radix scutellariae, Fructus Amomi Rotundus, Herba Lophatheri, Cortex Magnoliae Officinalis, Semen Coicis, Rhizoma Pinelliae prep., Radix Scropulariae, Medulla Tetrapanacis, Radix et Rhizoma rhei.

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of severe deficiency or illness, the dose can be temporarily doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended. It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

NATURAL HEART STRENGTHENER, HEART PROTECTOR, AND CIRCULATION SUPPORT FOR DOGS AND CATS, WITH TAURINE, L-CARNITINE, HAWTHORN, AND MAGNESIUM FOR HEART HEALTH

A **heart-strengthening and circulation-supporting** complementary pet food formulated based on veterinary experience. It contains highly effective, well-absorbed, and utilized active ingredients, herbal extracts, minerals, and amino acids that support the healthy functioning of the heart, aid the energy supply of the heart muscle, and contribute to maintaining optimal circulation. 100% natural, without side effects, GMO-free, free from additives, a safe and effective solution for maintaining the health of dogs and cats.

Benefits and effects:

Heart strengthener: Can help maintain proper heart function, supports the effective functioning of the heart muscle, and can improve the pet's overall vitality.

Circulation support: Promotes circulatory health, can reduce symptoms of congestive heart failure, mitral valve insufficiency, dilated cardiomyopathy (DCM), and cough of circulatory origin.

Taurine and L-carnitine content: These essential amino acids play a key role in the energy supply of the heart muscle, supporting the strength and regeneration of the heart muscle.

Natural heart support: Crataegi folium (hawthorn leaf) and Terminalia Arjuna herbal extracts contribute to the protection of the heart muscle, the regulation of blood pressure, and the health of the circulatory system.

Magnesium supplement: Magnesium bisglycinate

supports muscle function, aids in the contraction and relaxation of the heart muscle.

When is its use recommended?

- As a heart strengthener and heart protector
- In cases of congestive heart failure (CHF), mitral valve insufficiency (MVI), dilated cardiomyopathy (DCM)
- In cases of cough of circulatory origin, edema, heart muscle weakness
- To maintain general heart health and vitality

Ingredients: Taurine, L-carnitine, Crataegi folium (hawthorn leaf), Terminalia Arjuna, Magnesium bisglycinate.

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of symptoms of heart failure, the dose can be doubled, and in more severe cases, tripled, based on the veterinarian's recommendation.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended. It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

HEART POWER

RENAL SUPPORT

NATURAL KIDNEY FUNCTION SUPPORT, KIDNEY PROTECTOR, AND ANTIOXIDANT FOR DOGS AND CATS, WITH HERBS, MEDICINAL MUSHROOMS, AND MINERALS FOR HEALTHY KIDNEYS AND VITALITY

A **kidney function-supporting** complementary pet food formulated based on veterinary experience. It contains highly effective, well-absorbed and utilized active ingredients, herbal and medicinal mushroom extracts, and minerals that help maintain the kidneys' optimal urinary excretion function, especially in cases of reduced kidney function, and improve your pet's overall well-being. 100% natural, without side effects, GMO-free, free from additives, a safe and effective solution for maintaining the health of dogs and cats.

Benefits and effects:

Kidney support: Supports healthy kidney function, can help slow the progression of kidney failure, and may reduce the risk of complications.

Natural kidney protection: A complex of high-potency herbs (e.g., *Emblica officinalis*, *Silymarin*, *Lespedeza capitata*, *Astragalus membranaceus*) and medicinal mushrooms (*Ganoderma lucidum*, *Cordyceps sinensis*).

Detoxification support, blood pressure regulator, blood formation aid, **antioxidant**.

Complementary treatment for kidney failure: Suitable for supplementing the diet of dogs and cats suffering from chronic kidney failure, reduces symptoms (e.g., excessive drinking, dilute urine, loss of appetite, weight loss, vomiting, dehydration).

Multi-faceted health support: Can also help in cases of neurotic and nocturnal urinary incontinence, feline asthma, hyperthyroidism, Cushing's disease, diabetes, fertility disorders, improving sperm quality, hind leg weakness, and degenerative myelopathy.

When is its use recommended?

- For the complementary treatment of chronic kidney failure (in cases where UPC is maximum 0.2–0.4 or below)

- In case of decreased kidney function, laboratory abnormalities
- For urinary retention disorders, frequent urination, nocturnal urination
- Feline asthma, hyperthyroidism, Cushing's disease, diabetes
- Fertility disorders, improving sperm quality
- For complementary treatment of hindquarters weakness, degenerative myelopathy
- For maintaining general kidney health, for prevention

Ingredients: *Emblica officinalis* (25% Vitamin C), *Silymarin*, Calcium acetate, Trimethylglycine, *Lespedeza capitata*, *Astragalus membranaceus*, *Ganoderma lucidum*, *Cordyceps sinensis*, *Salvia miltiorrhiza*, *Angelica sinensis*, *Cinnamomum aromaticum*, *Rehmannia glutinosa*, *Rheum officinale*.

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of severe deficiency or illness, the dose can be temporarily doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended. It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

NATURAL URINARY TRACT AND BLADDER HARMONIZER, PREVENTS URINARY STONES AND URINARY TRACT INFECTIONS, FOR DOGS AND CATS, WITH HERBS AND MEDICINAL MUSHROOMS FOR URINARY TRACT HEALTH

A **urinary tract and bladder supporting** complementary pet food formulated based on veterinary experience. It contains highly effective, well-absorbed and utilized active ingredients, herbal, and medicinal mushroom extracts that help maintain the healthy functioning of the urinary tract, can inhibit the formation of bladder sand and stones, and may prevent urinary tract infections caused by persistently elevated urine pH. 100% natural, without side effects, GMO-free, free from additives, a safe and effective solution for maintaining the health of dogs and cats.

Benefits and effects:

Urinary health maintenance: Can help maintain the normal functioning of the urinary tract and bladder, supports the health of the urinary system, reduces the risk of urinary tract infections and urinary stones.

Prevention of urinary stones and crystal formation: Inhibits the formation of bladder sand, urinary stones, and crystals, supports the optimal pH of urine, thus helping to prevent problems arising from alkaline urine.

Prevention of urinary tract infections: Through the antimicrobial, anti-inflammatory, and diuretic properties of the herbs and medicinal mushrooms, it supports the cleansing of the urinary tract and the prevention of infections.

General well-being support: Contributes to the pet's vitality, can help in cases of protein or blood in the urine, elevated pH, difficulty urinating, urinary

tract growths, kidney sand, acute kidney failure, and UPC > 0.4.

When is its use recommended?

- Cystitis, urinary tract infections
- Kidney sand, urinary stones, urinary crystal formation
- Protein, blood in the urine
- Elevated urine pH, difficulty urinating
- Acute kidney failure, urinary tract growths
- To maintain urinary health, to prevent recurring urinary problems

Ingredients: Vaccinium macrocarpon (cranberry), Hydrolyzed collagen, Ganoderma lucidum, Phyllanthus niruri, Grifola frondosa, Lentinula edodes, Poria cocos, Alisma orientalis, Cinnamomum aromaticum, Plantago major.

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of severe deficiency or illness, the dose can be temporarily doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended. It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

URINE TRACT & BLADDER

URINARY INCONTINENCE COMPLEX

NATURAL ANTI-INCONTINENCE, BLADDER STRENGTHENING, AND URINARY RETENTION DISORDER-REDUCING COMBINATION FOR DOGS AND CATS, WITH HERBS, VITAMINS, AND MINERALS FOR URINARY TRACT HEALTH

An **anti-incontinence** complementary pet food formulated based on veterinary experience. It contains highly effective, well-absorbed, and utilized active ingredients, herbal extracts, natural vitamins, and minerals that support normal urination functions, strengthen the bladder sphincter, and contribute to maintaining hormonal balance. 100% natural, without side effects, GMO-free, free from additives, a safe and effective solution for maintaining the health of dogs and cats.

Benefits and effects:

Natural treatment for incontinence: Can help prevent and reduce urinary retention disorders, urine leakage, especially in cases of stress, calcium deficiency, or hormonal imbalance.

Bladder strengthener: Supports the proper functioning of the bladder sphincter, improves urine retention capacity.

Urinary support: Can help maintain healthy urinary functions, supports the health of the bladder sphincter and lower urinary tract.

When is its use recommended?

- Treatment of urinary retention disorders, urine leakage, incontinence
- Stress or hormonal-induced incontinence
- Bladder sphincter weakness

- In all cases where urinary retention problems are not caused by cystitis, urinary stones, or kidney disease
- For general urinary health support, for prevention

Ingredients: Radix Angelicae Sinensis, Radix Ginseng, Sclerotium Poriae Cocos, Radix Polygalae, Radix Astragali, Rhizoma Atractylodis Macrocephalae, Radix Bupleuri, Pericarpium Citri Reticulatae, Radix Glycyrrhizae.

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of severe deficiency or illness, the dose can be temporarily doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended. It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

NATURAL EAR HEALTH SUPPORT, ANTI-EAR INFLAMMATION, AND EAR ITCHING-REDUCING PREPARATION FOR DOGS AND CATS, WITH HERBAL EXTRACTS FOR CLEAN AND HEALTHY EAR CANALS

A 100% natural **ear health supporting** complementary pet food formulated based on veterinary experience. The product contains highly effective, well-absorbed herbal extracts, vitamins, and minerals that support ear health, help maintain normal earwax production, and contribute to reducing ear canal inflammation, itching, and irritation. GMO-free, free from additives, a safe and effective solution.

Benefits and effects:

Maintaining the health of ear canals: Helps maintain normal earwax production, can reduce excessive discharge, and supports ear cleanliness.

Complementary treatment for ear inflammation: Through its natural ingredients, it can reduce ear canal inflammation, itching, and irritation, and may promote faster regeneration.

Ear itching, earwax regulation: Alleviates itching of the ear pinna, helps prevent the formation of heavy earwax and discharge.

Detoxifying and immune-boosting effect: Supports the body's detoxification processes, keeps the blood and lymphatic system clean, contributes to the prevention of ear problems.

When is its use recommended?

- Prevention and treatment of ear inflammation
- Discharging, wet, or dry ear canal inflammations

- Heavy earwax and discharge formation
- Itchy ear pinnas, in case of irritation
- For maintaining general ear health

Ingredients: Pericarpium Citri Reticulatae Viride extract (natural anti-inflammatory), Radix Scutellariae, Fructus Luffae Retinervus, Herba Lophatheri, Cortex Moutan, Fructus Tribuli, Radix Bupleuri, Herba Artemisiae Annuae, Spica Prunellae extracts – herbal extracts for ear health and inflammation reduction.

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of severe deficiency or illness, the dose can be temporarily doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended. It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

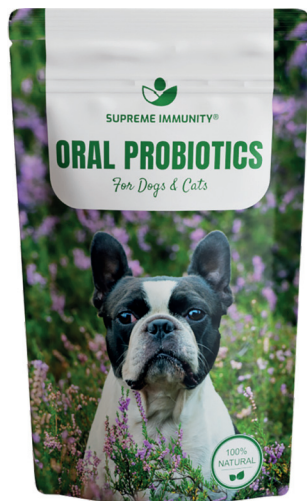

EAR EASE FOR COMPLEMENTARY TREATMENT

ORAL PROBIOTICS

NATURAL ORAL PROBIOTIC, DENTAL CARE AND ORAL HYGIENE SUPPORT FOR DOGS AND CATS, FOR THE HEALTH OF TEETH, GUMS, AND ORAL CAVITY

A 100% natural **oral probiotic** complementary pet food formulated based on veterinary experience. The product contains beneficial herbal extracts, minerals, and special oral probiotics for pets, which help restore and maintain the mouth's natural microflora, prevent tooth decay, bad breath, gingivitis, and the formation of plaque and tartar.

Benefits and effects:

Oral probiotic: Supports the health of the oral cavity, helps restore the natural microflora, prevents the formation of tartar, plaque, and tooth decay. Special, lyophilized oral bacterial strains (109 CFU / 100 mg) support oral immunity and the health of teeth and gums.

Natural dental care: Reduces bad breath, helps prevent gingivitis, gum recession, canker sores, mouth ulcers, and enamel weakness.

Oral hygiene maintenance and mineral supplementation: Herbal extracts and minerals (Liver extract powder, psyllium husk, Ascophyllum nodosum, Zeolite).

Tartar prevention: With regular use, it can help in the removal of tartar and reduce plaque buildup.

When is its use recommended?

- To maintain oral hygiene, to support oral health
- To prevent tartar, plaque, bad breath, and tooth decay

- In cases of gingivitis, gum recession, canker sores, mouth ulcers
- To strengthen tooth enamel, to prevent enamel weakness
- General oral care

Ingredients: Liver extract powder, Psyllium husk powder, Ascophyllum nodosum powder, Zeolite powder, Probiotic mouth bacteria strains lyophilized (109 CFU / 100 mg).

Dosage: Mini dog (up to 5 kg): 0.5–1 g/day Small dog (up to 10 kg): 1–2 g/day Medium (up to 25 kg): 2 g/day Large (up to 45 kg): 3 g/day Extra Large (over 45 kg): 4 g/day The daily dose is recommended to be given with food, mixed directly into the feed or food. One level measuring spoon is approximately 1 gram. Directly rubbing the powder on the gums is also an effective method of administration.

Recommended course duration: 3 weeks, can be repeated continuously if necessary.

Storage, shelf life: Store in a dry, cool place protected from light, out of reach of children, below 15°C. Shelf life: 2 years from date of manufacture.

Important Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended. It does not replace a varied, balanced diet.

Packaging: 30 ml in a resealable pouch with a desiccant gel pack and a measuring spoon.

NATURAL ORAL HYGIENE, TOOTH AND GUM PROTECTION, IMMUNE BOOSTER FOR DOGS AND CATS, WITH HERBS, VITAMINS, AND MINERALS FOR ORAL CAVITY HEALTH

An **oral hygiene-supporting** complementary pet food formulated based on veterinary experience. It contains highly effective, well-absorbed and utilized active ingredients, herbal extracts, vitamins, and minerals that help maintain the health of the oral cavity, teeth, and gums, and support the proper functioning of the oral mucosa. 100% natural, without side effects, GMO-free, free from additives, a safe and effective solution for maintaining the health of dogs and cats.

Benefits and effects:

Oral hygiene support: Helps the proper functioning of the oral cavity organs, supports the health of the oral mucosa, teeth, and gums.

Natural dental care: Can reduce excessive tartar formation, may help prevent bad breath and gingivitis.

Complementary treatment for gingivitis and oral mucosal ulcers: Can contribute to the faster healing of inflammations, ulcers, irritations, and sores.

Immune boosting: Ascophyllum nodosum (kelp), Myrciaria dubia (Vitamin C), Triticum aestivum, and other herbs support the immune system and the body's defense processes.

Oral hygiene for cats: Suitable for maintaining the oral health of cats, especially in cases of pancreatic overactivity, pancreatic inflammation, colitis, cystitis, kidney failure, or diabetes.

When is its use recommended?

- Bad breath, feline pancreatic overactivity, pancreatic inflammation

- Gingivitis, oral mucosal ulcer, excessive tartar formation
- Oral mucosal inflammation associated with colitis, cystitis, chronic kidney failure, and insulin resistance
- Cushing's disease, diabetes forms I & II
- General oral hygiene, tooth and gum protection, immune boosting

Ingredients: Organic Ascophyllum nodosum kelp, Myrciaria dubia (Vitamin C), Triticum aestivum, Sclerotium Poriae Cocos, Radix Rehmanniae, Fructus Corni, Cortex Moutan, Rhizoma Dioscoreae, Rhizoma Alismatis, Rhizoma Anemarrhenae, Cortex Phellodendri extracts.

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of severe deficiency or illness, the dose can be temporarily doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended. It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

ORAL HEALTH

SKIN SUPPORT

NATURAL SKIN HEALTH SUPPORT, SKIN NOURISHING, AND COAT VITAMIN FOR DOGS AND CATS, WITH HERBS, VITAMINS, AND MINERALS FOR HEALTHY SKIN AND COAT

A **skin health-supporting** complementary pet food formulated based on veterinary experience. It contains highly effective, well-absorbed and utilized active ingredients, herbal extracts, vitamins, and minerals that stimulate skin blood circulation, support the skin's regenerative processes, reduce excessive tissue reactions, and improve your pet's overall well-being. 100% natural, without side effects. GMO-free, free from additives, a safe and effective solution for maintaining the health of dogs and cats.

Benefits and effects:

Skin health support: Promotes the development and maintenance of healthy skin, supports skin regeneration, and reduces the chance of skin problems developing.

Complementary treatment for allergic dermatitis, eczema, hot spot: Can be effectively used for allergic dermatitis, eczema, hives, hot spots, atopic dermatitis, demodicosis, and skin conditions accompanied by itching.

Assistance for dry, oily, flaky skin: Hydrates dry skin, reduces oiliness, helps in treating dandruff and recurring skin conditions, and supports the health and shine of the coat and skin.

Inflammation of the external ear canal, eye and its appendages: Can be used as a complementary treatment for dermatitis, otitis externa, temporal dermatitis, hair loss, leaky gut syndrome, and inflammations of the eye and its appendages.

When is its use recommended?

- For developing and maintaining healthy skin
- Allergic dermatitis, eczema, hot spot, hives, atopic dermatitis

- Demodicosis, itchy, oily, weeping, flaky skin conditions
- Recurring skin problems, otitis externa, hair loss
- Leaky gut syndrome, inflammations of the eye and its appendages
- For general skin and coat health support

Ingredients: Malpighia glabra, Myrciaria dubia, Rhizoma Atractylodis Macrocephalae, Pericarpium Citri Reticulatae, Sclerotium Poriae Cocos, Cortex Magnoliae Officinalis, Radix Rehmanniae, Flos Loniceraceae, Radix Scrophulariae, Radix Paeoniae Rubra, Fructus Gardeniae, Semen Armeniacae, Semen Coicis, Talcum, Rhizoma Pinelliae Preparatum, Fructus Amomi Rotundus.

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of severe deficiency or illness, the dose can be temporarily doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended! It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

NATURAL COAT VITAMIN, ANTI-HAIR LOSS, AND SKIN NOURISHING FOR DOGS AND CATS, WITH HERBS, VITAMINS, AND MINERALS FOR A SHINY, HEALTHY COAT AND SKIN SUPPORT

A **coat vitamin and anti-hair loss** complementary pet food formulated based on veterinary experience. It contains highly effective, well-absorbed and utilized active ingredients, herbal extracts, vitamins, and minerals that support the health of the skin and coat, reduce hair loss, and promote coat regeneration. 100% natural, without side effects, GMO-free, free from additives, a safe and effective solution for maintaining the health of dogs and cats.

Benefits and effects:

Coat nourishing vitamin: Promotes the development of a healthy, shiny, and thick coat, supports hair growth, and reduces hair loss. An ideal choice for the health of a cat's coat, especially during shedding, for dry skin, itching, or hormonal problems.

Skin nourishing, skin care for dogs: Hydrates dry skin, reduces dandruff, aids in skin regeneration, and supports the health of the external ear canal.

Anti-hair loss preparation: Effectively reduces problems of a poor, brittle, flaky, or itchy coat, and supports skin circulation.

When is its use recommended?

- For developing and maintaining a healthy coat
- In case of hair loss, brittle, flaky, poor coat
- To support the treatment of dry skin, flaky coat, itching, skin conditions
- In cases of fungal skin infections, ring-shaped hairless patches, recurring skin problems
- To support dry, itchy otitis externa (in wet cases, EAR EASE is recommended)

- For complementary treatment of hair loss caused by leaky gut syndrome, pancreatic insufficiency
- To support hormonal balance

Ingredients: Malpighia glabra, Hippophae rhamnoides, Myrciaria dubia, Emblica Officinalis, Cortex Dictamnii, Herba Menthae Haplocalycis, Radix Bupleuri, Rhizoma Ligustici Wallichii, Herba Schizonepetae, Radix Angelicae Sinensis, Radix Glycyrrhizae, Radix Ophiopogonis, Fructus Papaya, Semen Zizyphi Spinosae.

Dosage (for prevention): Up to 5 kg body weight: 0.5 capsule/day, up to 10 kg: 1 capsule/day, 10–20 kg: 2 capsules/day, 20–40 kg: 3 capsules/day, over 40 kg: 4 capsules/day. The daily dose can be given in two parts. In case of severe deficiency or illness, the dose can be temporarily doubled.

Recommended course duration: 3 weeks, can be repeated continuously if necessary, with a 5-day break between courses.

Storage and shelf life: Store in a dry, cool, place protected from light, out of reach of children. The product maintains its quality for 2 years from the date of manufacture.

Warning: In case of hypersensitivity to any of the ingredients, the use of the product is not recommended. It does not replace a varied, balanced diet.

Packaging: 90 capsules (400 mg/capsule) in a resealable pouch with a desiccant gel pack.

PET COAT SUPPORT

NATURAL HEMP PRODUCTS

VETERINARY MEDICINAL PRODUCT FOR DOGS AND CATS.

Active ingredient:

CBD oil (cannabidiol): 1.55 mg/drop.

Carrier:

Cold-pressed organic hemp oil: 48.35 mg/drop.

Contains no additives, colorants, fillers, or preservatives. GMO-free.

Indication:

Can be used for the complementary treatment of conditions associated with inflammation and pain (e.g., arthrosis), to relieve restlessness and anxiety (loud noises), and for the complementary treatment of epilepsy.

Application:

To be administered orally.

General dose:

Up to 5 kg bw: 1-2 drops/day,

Up to 10 kg bw: 2-4 drops/day,

10-20 kg bw: 4-6 drops/day,

20-40 kg bw: 6-8 drops/day,

Over 40 kg bw: 8-12 drops/day.

Can be used as a single dose, as a course, or continuously (e.g., for joint problems), according to the veterinarian's instructions. It is recommended to administer the prescribed dose at the same time as feeding.

Contraindications:

Not to be used in case of known hypersensitivity to the product's ingredients.

Warnings:

The use of the product does not replace the veterinary drug treatment recommended for specific conditions. The product should only be used as directed. The prescribed dose should not be exceeded.

Use by:

2 years from the date of manufacture. Manufacturing number and date are on the bottom of the bottle.

Storage: Store in its original packaging, away from heat and ignition sources, below 30°C. Keep away from food, drink, and feed.

Packaging:

30 ml brown glass bottle with a dropper cap, in a cardboard box.

KEEP OUT OF REACH OF CHILDREN! FOR VETERINARY OR ANIMAL CARE PURPOSES ONLY!

Unused product and resulting waste materials should be disposed of in accordance with local requirements.

WOUND HEALING & PAIN RELIEVING BALM

VETERINARY MEDICINAL PRODUCT FOR DOGS AND CATS. NATURAL HEMP SEED OIL AND ALOE VERA BALM.

Composition:

Hemp seed oil, Borneol, Menthol, Aloe Vera, Paraffin, Vitamin E acetate, Bee Wax, Arnica montana, Glyceryl Stearate, Phenoxyethanol.

Indication:

Due to its natural ingredients, it can be used for the complementary treatment of joint problems and muscle strains. It softens the skin and has a cooling effect.

Application:

For external use only.

1. Apply a thin layer to the affected area, then for optimal effect, gently massage it in for about 20 seconds.
2. Can be applied 3-4 times daily.

Contraindications:

Not to be used in case of known hypersensitivity to the product's ingredients.

Warnings:

Avoid contact with eyes, ear canal, or nasal passages. Do not apply to broken skin! The product should only be used externally as directed. If it gets into the eyes, rinse immediately with plenty of water. Wash hands with soap and plenty of water after application.

Use by:

2 years from the date of manufacture when stored in original packaging.

Storage:

Store in its original packaging, away from heat and ignition sources, below 30°C. Keep away from food, drink, and feed.

Packaging:

30 g in a jar, in a cardboard box.

KEEP OUT OF REACH OF CHILDREN!

FOR VETERINARY OR ANIMAL CARE PURPOSES ONLY!

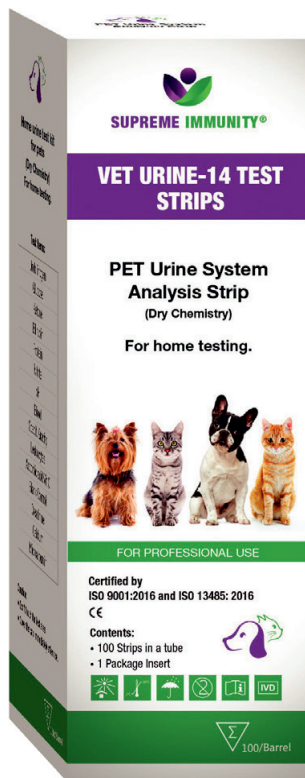

Unused product and resulting waste materials should be disposed of in accordance with local requirements.

ALOE & HEMP BALM

Urine test at home easily!

URINE REAGENT TEST

GENERAL DESCRIPTION:

The urine test strips are easy-to-use urine testing reagent strips for the detection of diagnostic chemical markers in pet urine.

These test strips are also used by veterinarians in clinics and laboratories for the preliminary diagnosis and early screening of potential health problems.

THE SIGNIFICANCE OF DIAGNOSTIC REAGENT STRIPS

Depending on the specific reagent panel, abnormal levels of chemical compounds appearing in the urine can be identified easily and quickly, allowing for an assessment of the general health status. Potential risk factors, which can be indicators of underlying health problems, can be recognized in a timely manner.

INSTRUCTIONS FOR USE:

1. Collect urine (the first morning urine is the most optimal).
2. Completely immerse the reagent strip in the urine sample or urine stream, then remove it immediately to prevent the chemical reagents from dissolving from the pad. Shake off the excess fluid. Touch the long edge of the reagent strip to a paper towel to absorb any remaining excess urine.
3. When using the reagent strips, immediately replace the container cap, thereby minimizing the exposure of the remaining test strips to light and air.
4. Wait 60 seconds.
5. Compare the color change of the reagent pads with the corresponding color chart on the bottle label.

Read and record the results. The color chart column on the left shows the healthy state. The framed color samples to the right indicate the degree of change in stages. Below these color samples, the measured quantity is also shown. It is advisable to take a picture after 60 seconds to preserve the results. This will be important for later evaluation by the veterinarian and for comparison with subsequent tests.

Meaning of the results for the 14 parameters:

- Leukocytes – Presence of urinary tract infection and bacteria in the urinary tract, UTI (Urine Tract Infection).
- Nitrites – A test for UTI (Urine Tract Infection), which is generally an indicator of urinary tract infections.
- Urobilinogen – Liver function test and indicator of liver disease.
- pH test – Determination of the acidic or alkaline state of the urine.
- Protein – An indicator of potential kidney diseases.
- Blood in urine – Most often indicates the presence of kidney stones.
- Ascorbate – The amount of vitamin C in the urine.
- Specific Gravity – A reflection of the kidneys' filtering ability, GFR (Glomerular Filtration Rate), in kidney disease, and can also indicate urinary tract infections UTI (Urine Tract Infection).
- Ketones – An indicator of the amount of fat used for energy production. A key indicator for dieters and diabetics.
- Bilirubin – A test and indicator of liver and gallbladder problems.
- Glucose (sugar) – Measurement of sugar in the urine, usually caused by diabetes.

- Microalbumin – Can help test for kidney damage and kidney health.
- Creatinine – Creatinine outside the normal test range may indicate kidney disease.
- Calcium – Calcium levels play a role in the health of the heart, kidneys, and thyroid.

Notes on evaluation:

Glucose: Glucose should not be detected in the normal urine of a healthy animal. Small amounts of glucose may be excreted through the kidneys, but this level is usually below the test's sensitivity, although it may occasionally result in a color change between negative and 5 mmol. A result of 5 mmol or higher should be considered significantly abnormal, and the animal should be taken for a veterinary examination.

Protein: Protein is generally not detectable in normal urine. Any color change greater than +/- (trace) indicates significant protein excretion (proteinuria). In high specific gravity urine, a +/- value indicates a normal protein level, as dense urine itself causes a minimal color change. Clinical examination and consultation, as well as further tests, are necessary for proper evaluation of the phenomenon.

pH: The pH of normal and abnormal urine can range between 5 and 9. The obtained values are generally situational and should be discussed with the attending veterinarian, who will professionally evaluate them considering the circumstances. The first morning urine usually provides the most stable result, which is between 5 and 6 for carnivores.

Additional parameters: The test can show changes in leukocytes, nitrite, ketone, bilirubin, blood, urobilinogen, calcium, creatinine, microalbumin, ascorbate, and specific gravity, including the normal ranges (left column). In most cases, normal or negative results are obtained for these additional test parameters, meaning the reagent panel color does not change. A color change in one or more reagent panels usually indicates an unexpected result (disease state). For example, a significant color change in the leukocyte panel indicates elevated levels of white blood cells, signaling a possible infection, while an abnormal color change on the blood panel may indicate undiagnosed internal bleeding, etc.

The UPC value, which indicates the degree of kidney failure, can be calculated from the **protein and creatinine color** values.

NATURAL CARE

Happy pet, satisfied owner

PET EAR CLEANER WITH ALOE VERA

VETERINARY CARE PRODUCT FOR DOGS AND CATS. NATURAL EAR CLEANSING SOLUTION WITH ALOE VERA EXTRACT AND COCONUT OIL.

Composition: Aloe (Aloe Barbadensis) leaf juice, Glycerin, Coconut oil, Fragrance, Disodium Co-co-Glucoside Citrate, Phenoxyethanol, Water.

Indication: Gently dissolves and removes earwax. Soothes and cares for the sensitive skin of the external ear canal.

Application:

1. Lift the ear and drop 0.5–2 ml directly into the ear canal from the cone-tipped applicator.
2. Gently massage the ear cleaner at the base of the ear cup with circular motions.
3. Allow the animal to freely shake the dissolved discharge out of the ear canal.
4. Wipe the remaining dissolved discharge from the ear with a gauze pad.
5. Can be used weekly if necessary.

Contraindications: Do not use in case of a damaged eardrum! Not to be used in case of known hypersensitivity to the product's ingredients.

Warnings: The product should only be used as directed. If it gets into the eyes, rinse immediately with plenty of water. Wash hands with soap and plenty of water after application.

Use by: 2 years from the date of manufacture when stored in original packaging.

Storage: Store in its original packaging, away from heat and ignition sources, below 30°C. Keep away from food, drink, and feed.

Packaging: 237 ml in a bottle, in a cardboard box.

KEEP OUT OF REACH OF CHILDREN! FOR VETERINARY OR ANIMAL CARE PURPOSES ONLY!

Unused product and resulting waste materials should be disposed of in accordance with local requirements.

VETERINARY MEDICINAL PRODUCT FOR DOGS AND CATS. BAKING SODA SOLUTION WITH MINT EXTRACT TO IMPROVE ORAL HYGIENE.

Composition: Sodium Bicarbonate, Purified Water, Stabilized Chlorine Dioxide, Tetrasodium EDTA, Peppermint extract, Vitamin E.

Indication: Slows down the formation of plaque and consequent tartar on the teeth. Reduces the development of unpleasant bad breath. Regular use helps maintain the proper hygienic condition of the oral cavity.

Application:

1. Add one teaspoon (5 ml) of the solution to 2.5 dl of water.
2. Use at least 3 times a week.

Contraindications: Not to be used in case of known hypersensitivity to the product's ingredients.

Warnings: The product should only be used as directed. The prescribed dose should not be exceeded.

Use by: 2 years from the date of manufacture when stored in original packaging.

Storage: Store in its original packaging, away from heat and ignition sources, below 30°C. Keep away from food, drink, and feed.

Packaging: 237 ml in a bottle, in a cardboard box.

KEEP OUT OF REACH OF CHILDREN! FOR VETERINARY OR ANIMAL CARE PURPOSES ONLY!

ORAL CARE WATER ADDITIVE

SOOTHING SHAMPOO

VETERINARY CARE PRODUCT FOR DRY, ITCHY SKIN, FOR DOGS AND CATS.
SHAMPOO WITH COLLOIDAL OATMEAL, JOJOBA AND LAVENDER ESSENTIAL OIL, WITH PHYTOKE-RATIN.

Composition: Water, Sodium Cocoyl Isethionate, Cocamidopropyl Betaine, Sodium Lauroamphoacetate, Sodium Methyl Cocoyl Taurate, Sodium Lauryl Glucoside Carboxylate, Lauryl Glucoside, Sodium Cocoyl Glutamate, Acrylates Copolymer, Coco-Glucoside, Glyceryl Oleate, Caprylhydroxamic Acid, Glyceryl Caprylate, Glycerin, Sodium PCA, D-Pantenol, Simmondsia chinensis (Jojoba) Oil, Colloidal Oatmeal, Lavandula angustifolia (Lavender) Oil, Phytokeratin.

Indication: Thanks to its colloidal oatmeal and lavender content, the shampoo soothes and nourishes your pet's coat and skin. It has a cleansing, conditioning, and soothing effect on sensitive skin. It neutralizes the unpleasant odor of the coat.

Application: For external use only.

1. Wet the entire coat with warm water.
2. Squeeze 5-30 ml of shampoo onto the wet coat (depending on the size of the animal).
3. Lather the shampoo thoroughly.
4. Leave it on for 5-10 minutes.
5. Rinse thoroughly with lukewarm water. Repeat if necessary (for very dirty coats) to achieve a better result.

Contraindications: Not to be used in case of known hypersensitivity to the product's ingredients.

Warnings: Avoid contact with eyes, ear canal, or nasal passages. Do not apply to broken skin! The product should only be used externally as directed. If it gets into the eyes, rinse immediately with plenty of water. Wash hands with soap and plenty of water after application.

Use by: 2 years from the date of manufacture when stored in original packaging.

Storage: Store in its original packaging, away from heat and ignition sources, below 30°C. Keep away from food, drink, and feed.

Packaging: 237 ml in a bottle, in a cardboard box.

KEEP OUT OF REACH OF CHILDREN!

FOR VETERINARY OR ANIMAL CARE PURPOSES ONLY! Unused product and resulting waste materials should be disposed of in accordance with local requirements.

VETERINARY CARE PRODUCT FOR DOGS AND CATS. BALM WITH WAX AND ALOE VERA.

TOPICAL CREAM

Composition: Sunflower oil, coconut oil, white beeswax, shea butter, carnauba wax, candelilla wax, Vitamin E, Aloe vera.

Indication: Through its natural ingredients, it moisturizes dry, cracked paw pads and nose. Its use is recommended in all seasons.

Application: For external use only.

1. Massage a small amount of cream onto the paw pads and nose.
2. Wait until the cream is fully absorbed and dry.
2. Can be used daily.

Contraindications: Not to be used in case of known hypersensitivity to the product's ingredients.

Warnings: Avoid contact with eyes. The product should only be used externally as directed. If it gets into the eyes, rinse immediately with plenty of water. Wash hands with soap and plenty of water after application.

Use by: 2 years from the date of manufacture when stored in original packaging.

Storage: Store in its original packaging, away from heat and ignition sources, below 30°C. Keep away from food, drink, and feed.

Packaging: 60 g in a jar, in a cardboard box.

KEEP OUT OF REACH OF CHILDREN! FOR VETERINARY OR ANIMAL CARE PURPOSES ONLY!

Unused product and resulting waste materials should be disposed of in accordance with local requirements.

PAW BALM

ESSENTIAL OIL SPRAY

VETERINARY CARE PRODUCT FOR DOGS.
External solution spray.

Composition: Cedar essential oil, Peppermint essential oil, Neem oil, Geranium essential oil, Rosemary essential oil, Citronella essential oil, Vitamin E.

Indication: External spray containing natural essential oils. Deodorizes and fragrances the coat.

Application: For external use only.

1. Shake the bottle well before use.
2. Brush the coat against the direction of hair growth to better access the skin surface.
3. From a distance of about 10 cm, spray the skin and coat, being careful to avoid the ears, nose, and eyes. Do not forget the paws.
4. Wipe off any excess dripped solution with a cloth.

Contraindications: Not to be used in case of known hypersensitivity to the product's ingredients. Not for use on cats!

Warnings: Avoid contact with eyes, ear canal, or nasal passages. Do not apply to broken skin! The product should only be used externally as directed. If it gets into the eyes, rinse immediately with plenty of water. Wash hands with soap and plenty of water after application.

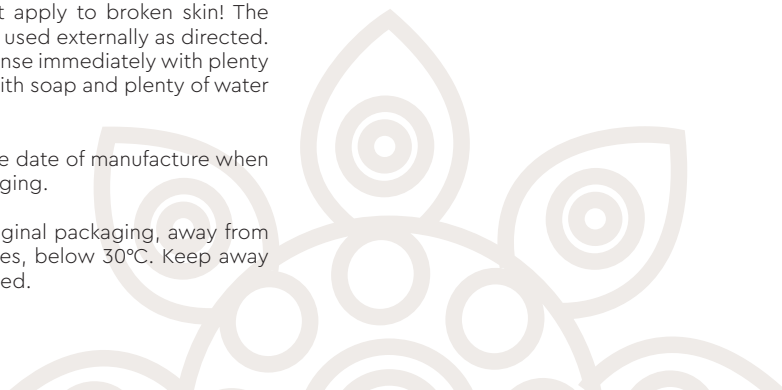

Use by: 2 years from the date of manufacture when stored in original packaging.

Storage: Store in its original packaging, away from heat and ignition sources, below 30°C. Keep away from food, drink, and feed.

Packaging: 250 ml in a brown spray bottle, in a cardboard box.

KEEP OUT OF REACH OF CHILDREN! FOR VETERINARY OR ANIMAL CARE PURPOSES ONLY!

Unused product and resulting waste materials should be disposed of in accordance with local requirements.

IMPREGNATED FRAGRANCE COLLAR FOR DOGS

PRO GUARD+ NATURAL ESSENTIAL OILS FOR DOGS
VETERINARY CARE PRODUCT.

Composition: Resin powder 52%, PVC 40%, Eucalyptus essential oil 2%, Citronella essential oil 6%.

Indication: Gives the dog a lasting pleasant scent. The blend of fresh scents from exclusively natural aromatic herbs – without harmful chemicals – deodorizes the dog. The essential oils in the collar soothe irritated skin.

Application: Before use, the dog collar must be removed from its hermetically sealed packaging and placed on the animal's neck so that two fingers can fit under the collar. Then, the collar should be fastened, and the excess part should be cut off. It is recommended to remove the collar before bathing or swimming the dog and to put it back on after the skin and coat have dried.

Collar length: It is packaged in a single large size (grey color) and should be cut to the appropriate length before use.

Contraindications: Not to be used in case of hypersensitivity to the active ingredients or any of the excipients of the product. In case of redness or other signs of allergy, the product should be removed from the animal.

Warnings: Wash hands with soap and plenty of water after application.

Use by: 2 years from the date of manufacture when stored in original packaging.

Storage: Store in its original packaging, away from heat and ignition sources, below 30°C. Keep away from food, drink, and feed.

Packaging: 1 collar in a foil pouch, in a metal box, 63 cm.

KEEP OUT OF REACH OF CHILDREN! FOR VETERINARY OR ANIMAL CARE PURPOSES ONLY!

Unused product and resulting waste materials should be disposed of in accordance with local requirements.

NATURAL, PREMIUM LIVER POWDER-BASED FOOD FLAVORING FOR DOGS AND CATS, TO INCREASE THE APPETITE OF PICKY PETS AND TO MAKE ADMINISTERING MEDICINE EASIER

Formulated with veterinary guidance, it contains high-protein beef and chicken liver powder. This **liver powder-based appetite stimulant** not only makes daily food tastier but also helps improve the appetite of picky, reluctant eaters, and facilitates the acceptance of medicines and herbal powders.

Ingredients: Beef liver powder, Chicken liver powder, (Protein: 65%, fat: 22%, crude ash: 6%, pH: 4.5–5.5)

Dosage:

As a flavor enhancer: Mixed with the medication or powder to be administered, or sprinkled on food as desired.

For feeding:

Under 5 kg: 2×0.5 g/day, up to 20 kg:

day, up to 10 kg: 2×1 g/
2×2 g/day, 20–40 kg:
2×4 g/day, over 40
kg: 2×7 g/day. The
included measuring
spoon holds approx.
1 gram when heaped.

Packaging: 100 g
in a resealable
pouch with a desiccant gel pack
and a measuring spoon.
